There is, however, some doubt about the closing night. Manager Pyper says the scale of prices is not yet agreed on, but it will doubtless be from \$2 for the stalls and loges down to 25 cents, as this was the grade of prices charged when Miss Anglin and Charles Richman were here at the head of the Empire company, and, if anything, the organization is strenger now than then. The full list of the company has not been furnished the press, but the San Francisco papers state that among the players are the well known actor, Morton Selten, and his wife, Kate Pattison Selten, both very strong actors. The company is carrying every piece of scenery, furniture, and draperles for their production, and though the engagement is one in midsummer, Manager Pyper expects it to record the strongest sort of success Mr. Miller always had a host of friends in this city, and the wonderful impression Miss Anglin left after "Mrs, Dane's Defense" is still a vivid memory with our theater goers.

At the Grand theater they are be ginning to brush up for the opening of the season, which will occur carlier than ever this year. The opening at-traction will be the Wiedman company, Aug. 17, in three comedy bills entitled, "Down in Egypt," "Th Old Lime Kiln," and "The Steam Laundry." Following this the house will be open nearly every

night up till next spring.

Managers Jones and Hammer are specially pleased to have booked three headliners for next March and April. They are Mrs. Fiske, Isabel Irving in "The Crisis," and James K. Hackett in a round of plays. These three attractions are all "independents," which means that they are anti-syndicate which also means that they are barree om playing at the Salt Lake Theater course, the Grand scale of prices wil be stiffly advanced for these events.

The soloist was handsomely received and she deserved to be. Her voice has matured since leaving Salt Lake, and shows the marks of careful and intelligent training. It is solid and far reaching, yet pure, clear and sweet, and well finished. A SENATOR'S STRENUOUS SON LAYS SIEGE TO A FAIR ACTRESS' HEART.

Stephen Elkins, Jr., son of the United States senator and multimillionaire, is again in San Francisco to press his suit for the hand of fair Edna Wallace Hopper, the young California actress, who is battling in the courts of British Columbia for a share of the millions left by the late Alexander Dunamuie.

He has been in San Francisco for the past five days, says the Chronicle, a frequenter of the Palace hotel and other places of social resort, and yet his presence did not become generally known until yesterday. His temporary abode is a local restaurant, where, however, he spends very little time, for he is devoted to the object of his affection and he is often across the bay at the country residence of the pretty actress and heiress.

That young Elkins is determined to wed Miss Hopper and that she is willing to accept the name and companionship he offers no one who have enjoyed the company of the young couple will gainsay. In fact, it is understood, and the Call has ample authority for the assertion, that their betrothal is certain to follow the first assurance that the younger Elkins receives from his father of parental condonation for his matrimonial step. That he will receive this assurance is only a matter of hope and speculation with the yong lovers, for already the elder Elkins. has sternly emphasized his objections to the matrimonial alliance, and is even now ignorant of his son's presence in San Francisco.

LOVERS MEET IN PORTLAND

Elkins Jr. accompanied Miss Hopper from the north, whither she and her attorney, Judge E. P. Coyne of New York, went several weeks ago to prosecute her case in the court at Victoria. On the return trip, arriving at Portland, fellow travelers of the actress noticed a Well dressed young man, evidently a stranger in that part of the world, suddenly approach Miss Hopper and greet her in a friendly manner. There was an interesting return of the courtesy, a long and quiet conversation between the young man and the actress, and a parting. - The incident might have been forgotton by the other travelers had not the young man appeared aboard the south- bound train later and renewed his attentions to Miss Hopper.

The following day when the train arrived at the Oakland pier and Miss Hopper debarked with a view of going to her country home in Haywards the same young man was again by her side and galiantly accompanied her aboard the Oakland local and saw her safely to her destination. It developed later that Miss Hopper's escort was young Elkins, who is strongly suspected of having prearranged the meeting at

Since their arrival here little has been seen of Elkins except when Miss Hopper crosses the bay on business engagements with her attorney. While she and Judge Coyne are deliberating over their legal problems, Elkins may be seen quietly whiling away the time in some other quarter of the city or hastening to his apartments at the restaur-

JUDGE COYNE IS EVASIVE. It is apparent that some effort has been made to conceal the fact It is apparent that some effort has been made to conceal the fact that he is in the city, it so far as it might become the basis of a telegraphic story to one of the Eastern newspapers, for it is understood in New York, so a telegram from there last evening stated, that Stephen Elkins, Jr., is enjoying himself somewhere along the Athlantic coast instead of basking in the presence of Edna Wallace Hopper.

When an effort was made yesterday, to secure an admission from the property of the pro

Miss Hopper that Eikins had been her frequent guest at her home across the bay she denied the story. Judge Coyne, too, seemed to be living in deep ignorance of the fact that young Elkins is in the city or that the New Yorker had met Miss Hopper and himself at Portland.

"Stephen Elkins, Jr., here?" queried the judge with an air of surprise, when questioned by a Call reporter. "That's strange. It's the first that I have heard of it."

But the judge is a clever tactician and defensive tactics have been his specialty during his successful practise in the New York courts. For a number of years he has been one of the trio of shrewd lawyers representing the Metropolitan Railway company, a corporation with which Senator Elkins, father of the young man, is prominently identified. As legal representative of Elkins, Sr., it is the fortune of the judge to often meet the senator's sons, and that he should fail to recognize in the young man who is paying so much attention to Miss Hopper one of the younger Elkinses might easily be construed as indicating an intention on the part of the judge to shield the wooers from publicity.

AWAIT CONDONATION.

However, Stephen Elkins, Jr., is in San Francisco and expects to remain here until Miss Hopper is ready to return to the east, which will not be for several weeks. Two years ago Edna Wallace Hopper came to San Francisco, and the fact that young Elkins followed her here gave rise to the first stories that a mutual attachment originating in New York some months previous existed between them. Later it was reported that Elkins, Sr., had warned his son that a marriage between the latter and the actress, which was gossiped in the east as a possibility, would not be condoned. Stephen Jr. has since tried to overcome the objection of his parent and in this endeavor is said to have been assisted by Miss Hopper, whose consent to a marriage is reported to hang conditionally upon the success of the young man in his pleadings

When Miss Hopper first announced her intention of appealing to the courts of Victoria to set aside the will of Alexander Dunsmuir, and it became known that she had engaged the services of Judge Coyne of New York the gossips of the eastern metropolis insisted that she was being financiered in her legal undertaking by young Elkins, and for support of this contention the fact was cited that her lawyer was the attorney of the Elkinses. To this insinuation, however, Judge Coyne gave an indignant denial yesterday and added that Miss Hopper in securing his services had been prompted by persons entirely foreign to the interests
